Change Summary

mCCPE Release version R1_0.0.8 will include updates to the following areas:

1. Account Registration
2. Worksite Enrolment
3. Automated Emails and Portal Notifications

Updates in Release 1

1. Account Registration:

- User Professions
 - The user Profession Dropdown is now in alphabetical order
 - Professional or College Identification Numbers added to some existing professions
 - Updated LPN suggested business role
- Changed portal Error Message to accurately reflect message when no email address is entered in field
- My Sponsors Tab previously displayed Independent Users; updated to only show to Authorizers
- Worksite Administrator can invite new users to join a worksite
- Required Authorizer Tile - Authorizer's name is now fully displayed
- Portal pop-up window now closes after completion
- Sponsorship pop-up window now closes after the completion
- Worksites are now required to have at least one group / site administrator

2. Worksite Enrolment

- Worksite page enlarged to see all tabs in one row
- Status of Worksite the Message '*Pending Approval for Access to CareConnect*' is displayed on UI until the Worksite is approved and turned on. Then message is updated to '*Approved for Access to CareConnect.*'
- Application Access, HPCCA Tile and CareConnect Enrolment Tile have been re-ordered to the enrolment process.

3. Email Template Updates

- Worksite Creation email now includes worksite contact name
- Updated verbiage throughout the portal to reflect current wording, replaced 'clinic' with 'worksite.'

- Updates to portal-generated email templates, including formatting and content
- Updating email address in headers and footers to reference private.careconnect@phsa.ca
