

Provincial Health Services Authority

Pay transparency report

The Provincial Health Services Authority (PHSA) provides specialized health care services and programs to communities across British Columbia, on the territories of many distinct First Nations. We work in partnership with other B.C. health authorities and the provincial government to deliver province-wide solutions that create a healthier province for all, focusing on clinical policy, clinical service delivery, commercial services, and digital and information technology. For more information, visit our website at phsa.ca.

Moving toward our vision to boldly create an equitable, anti-racist and culturally safe health system where everyone thrives, we are committed to employment equity. We recognize that our ability to provide the best care for our diverse patient populations in a safe, inclusive, and welcoming environment relies on a workforce with a rich diversity of skills, knowledge, background and experience. Of the 22,925 employees included in the data of this report, 73.4% are women, 25.9% are men, 0.2% are non-binary and 0.5% preferred not to specify gender. These numbers are pulled from our Human Resources/payroll system.

This report serves as a benchmark for improvement and a baseline to track progress and measure the success of future initiatives aimed at improving pay equity at all levels of the organization.

Employer details

Employer:	Provincial Health Services Authority
