

Student and On-site Faculty/Instructor Learning Requirements

Hazardous Drugs

Across BC new regulations are being implemented by the National Institute of Occupational Safety and Health (NIOSH) and WorkSafe BC. At PHSA, these requirements come into effect February 2022, when all students and on-site faculty or instructors will be required to complete e-learning modules on the LearningHub, specific to their discipline.

Complete learning for your discipline:

Discipline	LearningHub Course name & number
ALL disciplines	Hazardous Drugs Safety Awareness (27283)
- ALL Nurses (RNs, RPNs & LPNs) - Respiratory Therapists - Anyone who administers hazardous drugs	Hazardous Drugs Safety for Staff who Administer Hazardous Drugs (27287) and Hazardous Drugs Safety for Staff Who Receive, Unpack, and Transport Drugs (27285)
Pharmacy disciplines	Hazardous Drug Safety for Pharmacy Staff (27286)
Direct Patient Care: - Allied health professionals - Care aids - Anyone who provides care to patients but does not administer hazardous drugs	Hazardous Drugs Safety for Staff who Provide Care (27284)

Further information:

- These requirements apply for all students and on-site faculty or instructors who have clinical placements at any PHSA site.
- The current cytotoxic drug list will be replaced with a more comprehensive hazardous drug list and exposure control program.

Please contact WorkplaceHealth@phsa.ca if you have any questions.
